Dear Cabin Crew Recruitment Team,

> *I would like to express my interest in joining your cabin crew. My professional journey has taken different directions, but one purpose has stayed constant: caring for people, staying composed under pressure, and making every interaction feel thoughtful and dependable.*

I hold a Tourism diploma from the University of Murcia and a bachelor's degree in Tourism from the University of Bergamo, Italy, through the Bologna adaptation. Having lived and worked across Spain, Italy and Portugal, I am comfortable in multicultural environments. I speak native Spanish and advanced English and Italian, and bring over sixteen years of professional experience, much of it working directly with customers and teams.

My interest in aviation is backed by training: I studied Cabin Crew (TCP) at ESATUR in 2015, including aircraft simulator practice in Mallorca and an assessment with instructors. That course is historical, not a current attestation, and I am fully willing to complete the training and qualification process your airline requires. It showed me how safety, discipline, coordination and passenger care fit together.

In customer service, operations, retail and international client work I have learned to listen closely, manage priorities and keep my judgement when things move fast. I would be proud to bring that to a profession where every passenger encounter is a responsibility shared with the crew.

I would welcome the chance to take part in your selection process and explain my motivation in person. I am open to international relocation and eager to keep learning.

Kind regards,

Gracián Baena González

Cabin crew candidate
