CV 2026, Español (PDF)

In numbers

16+ years of professional experience

10+ years working with clients and teams

5 years building automation and AI

200 algorithms in my largest budget generator

Stack

Customer Success
B2B SaaS, onboarding, adoption, retention, key accounts

Data and BI
Power BI, SQL, Excel, Power Query, Pandas, KPIs

AI and automation
Python, APIs, Apps Script, GenAI, LLMs, chatbots

Operations
Zendesk, pricing, CX Ops, training, data storytelling

Languages

Spanish — Native
English — C1
Italian — C1
Portuguese — Basic
French — Basic

Gracián Baena

Customer Success Systems & Data Strategist

I turn Customer Success into data and AI systems that teams actually use.

Sixteen years connecting customers, operations and technology, five of them building the systems myself: **Zendesk, Power BI, Python and GenAI automation, gym budget generators with up to 200 algorithms**. I stay until teams adopt them.

Ticket GB-2026 — **Open** — **Senior Customer Success, CX Operations and Data & AI Operations roles**

Specialty	Experience	Stack
Customer Success	16 years	Zendesk, Power BI, Python
Languages	**Based in**	**Format**
ES, EN, IT	Murcia	Remote

Open the portfolio

I didn't change direction. I kept adding tools.

2014–16	2017–21	2021–24	2024–25	2025–26
Service	**Operations**	**B2B SaaS**	**Specialization**	**Systems & Data**
Mooby, Primark, El Corte Inglés	Solaris, Majorel	Minderest	AI, Python, data	Bodytone

Experience

2025

Mar 2025 – Mar 2026
Murcia
1 yr 1 mo

Bodytone

Data Analyst & Head of Customer Success

Power BI, Python, Zendesk, GenAI

- Created **Bodytone Support** and took it live: Zendesk, the public Help Center website, automation, follow-up and reporting, from request to measurable outcome.
- Connected systems (Zendesk, Google Sheets, Power BI) and built the dashboards, including my own dashboard for service, retention and KPIs.
- Built other apps and automations with Python and generative AI, such as gym budget generators with up to **200 algorithms**.
- Created **Bodytone Academy**, the company's first internal applied-AI training program, and led teams to real adoption.

2021

Mar 2021 – Mar 2024
Murcia, remote
3 yr 1 mo

Minderest

Customer Success Specialist, Pricing Intelligence

SaaS B2B, pricing, big data, retention

- Managed up to **80 international B2B SaaS clients** at once, including the company's **top client by revenue** and its highest-billing portfolio: onboarding, training, adoption and retention across countries and languages.
- Worked across the company: helped Sales win deals, Product decide what to build, and Operations and Support deliver, backed by data analysis and web crawling.
- Led pricing and positioning advice for e-commerce clients, turning competitive intelligence and market data into decisions.

How I work

Listen
To the customer and the operation, as they really work.

Decide
What deserves solving first.

Build
The minimum system that solves it.

Activate
Stay until the team actually uses it.

Earlier career

2020–21 **Senior Content Reviewer, Wellness Ambassador**
Majorel, Google/YouTube, Lisbon. Rolled out a company-wide improvement that halved errors.

2022–26 **Yoga Instructor**
Mood Fitness, Murcia. Earlier at BodyCare Fitness, Madrid (2019–20).

2017–20 **Store Director**
Solaris / MasVisión, Madrid. No. 1 seller (Gucci, Tom Ford); trainer.

2015–16 **Store Manager**
El Corte Inglés, Madrid. Assistant Manager in Murcia, 2007–10.

2014 **Store Manager**
Mooby, Murcia. Consultative tech sales.

2011–12 **Sales Specialist**
Phard Zu Elements, Bergamo. Retail in Italian during Erasmus.

2010–11 **Radio Broadcaster**
Onda Regional de Murcia.

Education

2025 **Learning AI Through Visualization**
Columbia University

2023 **IT Automation with Python**
Google, Coursera

2022 **Data Science**
Coursera, Udemy

2019 **Yoga Instructor certification**
Madrid

2012 **Bachelor's degree in Tourism**
University of Bergamo, Italy · Bologna adaptation

2011 **Diploma in Tourism**
University of Murcia

Systems in production

Bodytone Support Operating System

Live in production

A Zendesk Help Center wired to routing, automation, follow-up, outcomes and dashboards: from customer request to measurable result, in one system.

Customer request — Public Help Center, 8+ intent routes
Routing — Zendesk workflows, automation, follow-up
Visibility — Power BI dashboards and service KPIs
Adoption — Bodytone Academy, applied-AI training

Zendesk, Power BI, Python, GenAI

Case study · Live Help Center

Gym budget generator, up to 200 algorithms

Request a demo

Instant quotes that combine SKU, floor plan, access points, transport, logistics and rates, with PDF generation.

Pricing, algorithms, logistics

Smart LinkedIn Profile Finder

Request a demo

Turns full names into a probable profile match through multi-source search, scoring and assisted human validation.

Research, enrichment, scoring

Personalized, Automated Outreach

Request a demo

Database-driven campaigns segmented by sector and role, with AI personalization, human review and analytics.

GenAI, sales ops, human review

All four systems are documented, with architecture, decisions and results, at gracianb.github.io/professional-deck. Private demos are shown on request.

Public engineering evidence

Project OHANA

Stateful simulation built as a systems-engineering lab, with regression tests, browser E2E and CI.
